If Pleasant Stovall, of the Savannah Press, is made governor of Georgia, and Wallace Stovall, of the Tampa Tribune, governor of Florida, will it not be a coincidence? And what will the governor of Georgia then say to the governor of Florida?

Wm. Finn, of Lima O., obtained excellent results from the use of Foley's Kidney cure. "It relieved my backache and severe pain over the hips. It toned my system and gave me new vim and energy. It is an honest and reliable remedy, a sure cure for all kidney diseases." Anti-Monopoly Drug Store.

Mr. P. M. Oliver, of Gainesville, one of the most enterprising men of that section, has been a visitor to Ocala this week and if a genuine oil gusher is struck here in the immediate future it will be no surprise to him. He believes we have the oil.

High living, intemperance, exposure and many other things bring on Bright's disease. Foley's Kidney Cure will prevent Bright's disease and all other kidney and bladder disorders if taken in time. Be sure to take Foley's. Anti-monopoly Drug Store.

The Pensacola Sentinel, the leading colored newspaper in the state, has recently gotten out a special edition which is in every way creditable to its editor, M. M. Lewey. The buildings erected by the students of the Tallahassee colored normal speak in praise of that institution louder than words.

"I reckon this thing ob prayin' fer rain is all right in its way," said the old Georgia farmer, "but I never did see any good come from it. Last week I prayed for it all day—except the intervals when I had to get up an' swear at the niggers for lettin' the cows get in the corn—an' we hain't had no rain yet!"—Atlanta Constitution.

Ocala Industrially Considered.

Last Sunday's Times-Union and Citizen was largely devoted to industrial write-ups of different sections of Florida and told a tale of progress glorious enough to gladden the heart of every well-wisher of the state.

The following is what was said of Ocala's growth:

While there have not been as many buildings erected here this year in Ocala as in former years, there has been more changes in real estate than in any year during the past decade. More than \$100,000 in real estate has changed hands; every dwelling and every business house is occupied; the tone in real estate values and in business is firm, and the outlook is altogether flattering.

Mrs. Mary Eagleton has just completed a very elegant residence on Ocklawaha avenue, one of the principal residence streets of our city. She is preparing to move into it in a few days.

Mr. William Bachelder is putting \$1,500 in repairing and additions to his home on Exposition street.

S. Starr Sternberger has purchased thirteen dwellings and has had most of them repaired, enlarged and painted, and he finds them a profitable investment.

Messrs. Ford & Hiller, phosphate brokers, have erected a superb office building on the public square. They are now occupying the same, and it is considered one of the handsomest of office in the state.

C. Hornberger has erected a two-story business block on Main street, and Mr. H. L. Anderson has built two business houses, a railroad terminal station, a livery stable and five dwellings.

The firm of McIver & McKay, contractors, have completed and have under contract \$50,000 in buildings for various phosphate plants in the vicinity of Ocala.

We have in contemplation a very handsome \$10,000 opera house. The erection of this building will be commenced now in a very short while; \$5,000 worth of stock has already been disposed of, and as soon as \$4,000 more is raised the building will be commenced.

The erection of the cassava factory, which has been in contemplation for some time, has not been abandoned and the prospects are that it will be completed within the year, and will perhaps mean more to the farming and mercantile interests than any investment yet consummated.

Maj. C. W. Campbell continues to receive encouragement from home and outside capital for the building of the syrup and sugar refinery he has in contemplation, and its erection may be regarded as a certainty.

In addition to the new buildings we have constructed more than forty miles of good roads at a cost of \$50,000.

Our spoke and rim factory, barrel factory, crate factory, ice plant, moss factory, gas plant, electric light plant, foundry and machine shops, lime works, lumber mills and job printing offices are all running on full time, and are doing an excellent business.

The cold storage warehouse of the Ocala Ice Manufacturing Company paid very handsomely last winter, and its capacity was more than doubled, and it is believed that it will lead to making this section of Florida a pork packing center and will soon be known as the "Chicago" of the south. Our very best farmers claim that we can fatten hogs cheaper here than in any state in the west, and the attention of our most scientific farmers is being turned in that direction, and "pork packing" in Florida may be said to be a coming and perhaps a leading industry.

Geo. Giles & Co., contemplate erecting a canning factory and anticipate having it completed in time to can the surplus products of the vegetable growers next season.

Passed Over the River.

The sad news of the death of John Vogt reached this city last Tuesday.

He died at his home in Levy county, near the gulf coast, last Sunday morning of dropsy.

He was about forty-five years of age and a brother of Albertus Vogt.

He leaves a wife, several children and many warm friends to mourn his death.

A. R. Bass, of Morgantown, Ind., had to get up ten or twelve times in the night and had severe backache and pains in the kidneys. Was cured by Foley's Kidney cure. It's guaranteed. Anti-Monopoly Drug Store. m

ANOTHER BIG DAY.

Ocala Will Have Another Popular Excursion August 29th.

Ocala's big days continue to grow in popularity.

The last two were over the Plant System.

The on August 29th will be over the Sea Board Air Line and exceedingly low rates have been secured.

From Fernandina, Jacksonville and Tampa only \$1.50 for the round trip; from Orlando, \$1.25; from Tavares, 75 cents; from Gainesville, Hawthorne and Citra, 50 cents.

Tickets good for two days, on all regular trains.

Mayor Fishel and staff are at work devising special attractions for the big day.

A game of baseball is being arranged between the Fernandinas and Ocalas. Among other attractions there will be a balloon ascension and an ariel display of fireworks. It will be one of the prettiest sights ever witnessed in this section of Florida.

It is believed all previous records will be broken and Ocala will be greeted with 5,000 visitors.

Plant City vs. Ocala.

The ball game between the above teams last Monday afternoon was one of the most closely contested of this season's series, the score standing 5 to 3 in favor of Ocala.

The Plant City's had a splendid pitcher and if he had been properly supported the game might have had a different termination.

The Plant City's behaved nicely and took their defeat gracefully.

Ocala crossed bats with the Conchs at St. Augustine yesterday afternoon and will measure strength with the Clearwaters on Saturday Aug. 24.

You Know What You Are Taking

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle, showing that it is simply Iron and Quinine in a tasteless form. No cure, no pay. 50c.

A Remarkable Woman.

Mr. Donald E. McIver is back from North Carolina, where he has been on the sad mission to pay the last duties of a son to a devoted mother. The good woman died July 27 at Fayetteville, N. C., at the allotted age of three score and ten. She was the mother of fourteen children, eight sons and six daughters. Eleven are still living, and the mother lived to see all of them happily married except one son and one daughter.

What a noble record that is, and how many will rise up and call her blessed!

The St. Augustine Excursion.

The excursion to the Ancient City yesterday was the biggest on record.

Ocala was in evidence to the number of three hundred and fifty, composed largely of ladies.

The large delegation was in compliment to her popular baseball team. The train was to leave here at 1:42 a. m., but didn't get off until daylight.

The people waited patiently and good humoredly.

When the locomotive finally pulled out it was carrying fifteen crowded cars, three to a seat in many instances and standing room nearly all pre-empted.

The train couldn't pull up the grade at Martin until four attempts were made and didn't pass Reddick until eight o'clock.

A new engine met the train at Rochelle and the excursionists, without further delay, pulled into the historic city at about eleven o'clock.

After a hasty toilet, dinner was partaken of. The excursionists then separated, looking at the different sights of the city until the ball game was called.

It was perhaps without exception the most thrilling and exciting game ever witnessed in Florida.

If the Ocala boys did not win it was not because they did not have a hundred fair and enthusiastic rooters.

No cavalier in Spain with lance in hand ever fought for the hand of his lady love with more lovely smiles to cheer him on to victory.

Under such magnificent inspiration the boys covered themselves with glory but the fates seemed to have turned against them and they lost the game by a score of 9 to 8.

The game was finely and impartially umpired.

Notwithstanding the hardships and drawbacks the excursion was an enjoyable one and will long be remembered.

The excursionists reached home this morning at 3:30 played out and jaded.

"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure.
